

## Workshop on NSSO Data using SPSS & STATA

23 – 28 April, 2022

A. N. Sinha Institute of Social Studies, Patna is organising a six-day workshop on the use of NSSO unit level data. The workshop will also provide knowledge on advanced level statistics using MLwiN software. The objective of the workshop is to provide a deeper understanding of large-scale data and its use. Hands-on training will be provided for a better understanding of the data and statistical analysis.

The workshop is going to be organised in a blended mode. Resource person (s) of the workshop will be ANSISS faculty and experts from reputed institute and universities. Research scholars and faculty members of Economics, Statistics, Demography and Geography are eligible to apply. Seats for the workshop are limited. Preference will be given to those working or interested to work on large scale data sets.

There is no registration fee to attend the course. Participants should finance on their own their travel, food and accommodation expenses, if any.

### Activities

1. NSSO Data: An Overview; Methodology
2. Understanding the unit level data, files, levels and variables
3. Extraction and Conversion of Data in SPSS and STATA.
4. Merging, Append, creating IDs
